This year's theme, "Constellations: Celebrating StaRs," marks our school's 98th Prize Presentation Day as a celebration of our rich history and our students' holistic achievements in character, academics, aesthetics, sports, and leadership. Staff, partners, and alumni are also recognised for their dedicated service and valuable contributions to the school. Only prize winners, students on duty and student representatives from this year's Sec 4/5 cohort will need to report to school on 30 April. This program aims to cultivate cross-cultural intelligence and provide a deeper appreciation for regional biodiversity through experiential learning. Parents of the selected students have been notified via Parents Gateway (PG) with further administrative details.

Term 2 School-Based Assessments

- Weighted Assessments (WA) refer to assessments where the scores form part of the computation of a student's overall results in a subject for the year. Each subject has at most one Weighted Assessment per school term. This allows teachers to better pace out teaching and learning and enhance students' learning experiences. In turn, this helps students to build their confidence and develop an intrinsic motivation to learn. Weighted Assessments can take different forms for different subjects: Class Tests, Practical Tests, Projects, Performance Tasks, Coursework, or Assignments. The WA schedule, format of assessment and topic/content can be found in [Annex C](#).
- Students will not be given any make-up time if they report late for WAs. If students report after the end of a WA, they will be deemed absent for the assessment.
- Absence from Weighted Assessment (WA) must be covered with a Medical Certificate** with the diagnosis stated, from a medical practitioner registered under the Medical Registration Act on the Singapore Medical Council website. **Parents' letters are not allowed**. Any absence during the school term for overseas travel will be recorded as "Absent Without Valid Reason." Please also note that if your child is absent for any weighted assessments during this period, the assessment will be awarded a zero mark.
- In the event of absence from class tests due to valid reasons, e.g. representing school or country in official sanctioned competitions and conferences, a "Valid Reason (VR)" will be given for the class test. This is in recognition of students' holistic development, given that the student development and academic domains are both important. Students can attempt the WA at a later date for the purposes of practice, and feedback will be given to support their learning.
- Beyond WAs, teachers also formatively assess learning outcomes, strengths, and areas for growth of each student by employing questioning techniques during lessons and assigning class work and homework. Teachers will indicate the assigned homework on the Homework Board in the classroom, and students should record in their copy of the Student Handbook.
- Students are strongly encouraged to seek consultations with teachers in other subject areas, whenever they are in doubt. This will help to address learning gaps earlier in a timely manner.

National Digital Literacy Programme (NDLP)

- All secondary school students are equipped with a school-prescribed personal learning device (PLD). PLDs serve to strengthen personalised learning through the use of e-pedagogy and enhance the learning experience for

students.

21. Parents/Guardians of Sec 2, 3, 4 and 5 students are strongly encouraged to remind your child/ward on the responsible use of the PLD. On a daily basis, students should also ensure that their device is fully charged at home and brought to school for learning purposes. Students are reminded to safe-keep their PLDs in their assigned lockers when they leave the classroom for their recesses and/or PE lessons. Students are to bring their PLDs home daily for both learning and security reasons.
22. Parents/Guardians may use the Device Management App (DMA) to help manage your child's/ward's use of their PLDs after school curriculum hours. Information on the DMA and user guides can be found at our school website at <https://www.serangoonsec.moe.edu.sg/parents-and-students/ndlp/>.
23. For school-based technical support on PLD matters, students may approach ICT Managers or contact them at **8907 9165** during school operating hours.
24. The information for Sec 1 PLD Deployment and Sec 3 PLD eExams will be provided via PG at the respective time junctures.

School Expectations

25. Regular attendance is integral to student learning and engagement in school. Attendance in school is important to ensure that all students gain knowledge and skills consistently throughout the school term. Being present in school regularly will also increase the opportunities for positive relationship-building amongst students and between teachers and students. **Absences for overseas travel during the school term are strongly discouraged. We encourage you to consider alternative arrangements where possible, so as not to disrupt your child's school routine and learning progress.**
26. A medical certificate, from a medical practitioner registered under the Medical Registration Act on the Singapore Medical Council website, is required if your child/ward is unwell and unable to attend school. A parent's letter may be provided for other types of valid absences, e.g. bereavement. **Permission must be sought from a School Leader via Form Teachers for all other absences, including overseas travel, during the school term.**
27. Parents/guardians who have onboarded PG will receive a notification via PG if student is absent from school. Kindly submit your child's/ward's reason for absence after receiving the notification.
28. Students coming in 7.40am will be regarded as late for school and will face consequences (e.g. serving detention). We encourage students to arrive in school at least five minutes before the respective reporting time. This will help them frame their mind and prepare themselves to learn for the rest of the day. Latecomers' mobile phones will be kept in the general office until curriculum ends so that students can go to class promptly after admin procedures.
29. As a school, we strive to inculcate appropriate and responsible device usage in our students. In alignment with MOE's November 2025 guidelines, students are expected not to use handphones during school hours, including recess and co-curricular activities. Handphones are to be kept in lockers or bags while students are in school. Parents/Guardians who need to contact their child/ward urgently may do so via the General Office at 6385 1589. Students who do not comply with the school's expectations on electronic device use may be subject to consequences, including confiscation of the device.
30. The upkeep of our school facilities is crucial to ensure that our ongoing refurbishment efforts provide a conducive learning environment for our students. To achieve this, we have emphasized to all members of the school community that everyone plays a vital role in caring for our upgraded facilities. We take incidents of wilful damage to school property seriously and will take necessary actions to recover the costs of repairs or replacement. For example, the cost of replacing a damaged door frame is \$700, while a damaged PLD locker door costs \$80. We kindly request the support of all parents/guardians in instilling a sense of responsibility and care among our students towards maintaining public properties.
31. Students are to wear the full school uniform on Mondays and may wear either full or half school uniform (PE shirt with pants/skirt) from Tuesdays to Fridays. Members of Uniformed Groups may wear their UG pants/skirts with boots/shoes on Tuesdays and/or Thursdays. Students returning to school during the holidays are expected to be in proper school attire (full or half school uniform, with black shoes and black socks). We seek parents' support in reminding their child to uphold school standards during the holidays.
32. Parents/Guardians are encouraged to remind your child/ward to queue for buses in an orderly manner while on public transport and minimise talking amongst themselves.
33. Further information on school expectations and rules, such as on student bearing and appearance, can be found in

Safety and Security

34. To ensure a safe and smooth commute to school, all student cyclists are required to register with our Operations Manager. When cycling to school, students must adhere to road safety guidelines and are strongly encouraged to wear cycling helmets, even if the students are using park connectors and pedestrian pavements for their entire commute. As part of our commitment to student safety, we have a strict policy of not allowing bicycles without functional brakes and personal mobility devices (PMDs) within the school compound.
35. To maintain a safe and secure school environment, we require all visitors to follow these steps:
 - a. Register at the Guard Room and obtain a visitor's pass from the security personnel.
 - b. Proceed to the General Office.
 - c. Visitors are not permitted to proceed to other parts of the school, including the classrooms.
 - d. Please remain at the school foyer or General Office unless accompanied by a school staff.
36. There are very limited parking spaces available within the school compound, hence, we kindly seek your understanding to park at nearby HDB carparks when attending school events and programmes. The nearest carpark is located at Block 475, Upper Serangoon Crescent. Please use the pedestrian crossing or the overhead bridge to cross safely from the carpark to the school premises.

School-Home Partnerships

37. As a parent/guardian, you are the key navigator of your child's/ward's growth. Your child/ward will benefit the most when we work hand in hand to fulfil our shared responsibilities to bring out the best in him/her.
38. MOE has been taking steps to develop our students holistically. We look forward to a positive partnership anchored on mutual trust and respect. In partnering each other, we can
 - role model the way by encouraging responsibility, believing in our children's abilities and advocating for good values in words and actions;
 - build strong bonds with our children through shared experiences, meaningful conversations and establishing good habits for our children to stay confident and in control of their technology use; and
 - have regular conversations about our children's development while respecting each other's time by communicating through official channels during working hours.
39. We would like to share the resource toolkit, Parenting for Wellness Toolbox for Parents.
